Danville, CA | 6085752779 | evanalbert949@gmail.com | linkedin.com/in/evan-albert

EDUCATION

Oregon State University **Corvallis, OR**
Bachelor of Science in Computer Science *Expected June 2027*
GPA: 3.54/4.0

- Honor Roll (5x)
- Awarded Provost Merit Scholarship

WORK EXPERIENCE

AGC Biologics **Bothell, WA**
MSAT Intern (Manufacturing Science & Technology) *Mar 2025 - Sep 2025*

- Designed a cloud-ready internal data platform and wrote technical architecture + executive summary to guide adoption by Process Dev and MSAT teams.
- Developed a low-code dashboard app in Power Apps and Power Automate available for 50+ business and process development staff, implementing role-based access control and end-to-end create, remove, update, and delete (CRUD) workflows. No incremental licensing (M365) that totals 15+ workflows and an audit trail.
- Developed a data orchestrator tool eligible for 25+ scientists that aggregates schedules, batch records, and chemical inventory from SharePoint/Teams/OneDrive, kept in sync via 10+ automated pipelines.
- Supported Automation's validation of a new distributed control system (DCS) by reviewing automation logic against safety data sheets (SDS) for 50+ process modules and tracking issues through to resolution.
- Introduced simple UX guidelines and reusable components for internal tools, improving task completion and reducing training time for new users.

PROJECTS

Run For Your Life (RFYL) *Mar 2025 - Present*
Full-stack location game

- Stack: Node.js/Express, TypeScript, PostgreSQL, Render, Maps Geolocation, Jest, GitHub Actions.
- Built an end-to-end app where closed-loop runs claim territory; designed schema (Users/Runs/Territories/Leaderboard) and route-validation logic.
- Implemented real-time location capture with basic anti-spoofing (speed/teleport checks); indexed queries for fast territory & leaderboard reads.
- Set up CI-gated tests: unit + integration + E2E (Jest/Puppeteer); added coverage report and PR status checks.

RELEVANT COURSEWORK

Data Structures, Algorithms, Software Engineering I & II, Machine Learning & Data Mining, Databases, Web Development, Operating Systems I & II, Computer Networks, Computer Security, Computer Architecture & Assembly

SKILLS AND INTERESTS

Tools/Skills: JMP, Workday, Microsoft Excel & PowerPoint, Power Apps, Power BI, Smartsheet
Technical: Python (NumPy, Pandas), Java, JS, HTML, C++, C#, Git, SQL, MongoDB, Ubuntu, Linux
Interests: ACM Club, OSU Esports, Hiking/Camping, Running, Skiing, Video games
